This plan is a photographic reduction of the component 1:1250 plans.

For fuller information see Reference Card published separately.

REFERENCE

The lines on the plan form part of the National Grid and are spaced at 100 metre intervals. To give a large scale reference defining the position of a point to the nearest 10 metres proceed as follows:-

EXAMPLE: 1 in Inglewood	
EASTING	NORTHING
Take west edge of square in which point lies and read the figures opposite this line on NORTH and SOUTH margins	Take south edge of square in which point lies and read the figures opposite this line on EAST and WEST margins
Estimate tens of metres from the grid line	Estimate tens of metres from the grid line
467	601
4672	6018

TEN METRE REFERENCE: SD 46726018

For further information see "The Projection for Ordnance Survey Maps and Plans and the National Reference System"

The representation on this plan of a road, track or footpath is no evidence of the existence of a right of way.

Parcels of land to which averages are shown, are numbered with the Ten metre SD Reference of the approximate centre of the parcel. 1 square inch on this plan represents 996 acres on the ground.
