

## Health and safety at the site questionnaire

The Inspector will visit the site and will need to know what safety equipment and protective clothing to bring. The following questions indicate the type of information the Inspector will need about the site and any land or building that the Inspector will need to enter. Please supply any additional information on a separate sheet of paper.

1. Is the site uneven or does it present any other known risks? Is special footwear or any other Personal Protection Equipment required, and will this be supplied at the site?

Walking boots or shoes should be worn as the route is mainly unsurfaced following a compacted earth farm track with sections of trodden path along the edge of fields.

2. Is there any likelihood of exposure to pets or other animals which may present a risk to the safety of the Inspector?

Order route passes through land used mainly to grow crops. Dogs may be present where route passes through or close to properties.

3. Is the site remote and/or can it be seen from other occupied buildings/property/public land/roadside?

The site is not remote and can be accessed from public roads at either end.

4. Does the site have a good mobile phone signal or is there easy access to a public telephone should the emergency services be required?

There is good mobile service from all mobile networks along the route.

5. Are there any areas that require specialist equipment or training for access – any confined spaces?

No

6. Are there any dangerous pieces of equipment or substances stored at the location?

None identified

7. Is there any likelihood of exposure to chemicals, asbestos, radiation or are there any other risks, requiring the use of Personal Protection Equipment, which may affect the health & safety of the Inspector? (Asbestos is referred to directly as it was present in buildings built before it was banned in 1977).

Nothing identified

8. If there is any other relevant information which the Inspector should be aware of that is not covered in this questionnaire?

The route can be accessed from either end of Haunders Lane with parking possible close to Mill Hill Farm or Hannings Farm.
