

Health and safety at the site questionnaire

The Inspector will visit the site and will need to know what safety equipment and protective clothing to bring. The following questions indicate the type of information the Inspector will need about the site and any land or building that the Inspector will need to enter. Please supply any additional information on a separate sheet of paper.

1. Is the site uneven or does it present any other known risks? Is special footwear or any other Personal Protection Equipment required, and will this be supplied at the site?

Walking boots or shoes should be worn as the route is unsurfaced following a trodden path along the edge of fields for most of its length. Parts of the Order route are not walkable and are now overgrown/along the base of a watercourse but can be viewed by following the footpath running immediately adjacent to it.

2. Is there any likelihood of exposure to pets or other animals which may present a risk to the safety of the Inspector?

Horses graze fields adjacent to part of the route but fencing separates them from the Order route and adjacent public footpath.

3. Is the site remote and/or can it be seen from other occupied buildings/property/public land/roadside?

The site is not remote and can be accessed from public roads at either end.

4. Does the site have a good mobile phone signal or is there easy access to a public telephone should the emergency services be required?

There is good mobile service from all mobile networks along the route

5. Are there any areas that require specialist equipment or training for access – any confined spaces?

No

6. Are there any dangerous pieces of equipment or substances stored at the location?

None identified

7. Is there any likelihood of exposure to chemicals, asbestos, radiation or are there any other risks, requiring the use of Personal Protection Equipment, which may affect the health & safety of the Inspector? (Asbestos is referred to directly as it was present in buildings built before it was banned in 1977).

Nothing identified

8. If there is any other relevant information which the Inspector should be aware of that is not covered in this questionnaire?

Parking is available on Liverpool Old Road just north of the Order route where it meets Liverpool Road (A59) at point D.
