

Walking boot are recommended as the route
Health and safety at the site questionnaire

The Inspector will visit the site and will need to know what safety equipment and protective clothing to bring. The following questions indicate the type of information the Inspector will need about the site and any land or building that the Inspector will need to enter. Please supply any additional information on a separate sheet of paper.

1. Is the site uneven or does it present any other known risks? Is special footwear or any other Personal Protection Equipment required, and will this be supplied at the site?

Walking boots are recommended as the route beyond point D on the Order Map is quite uneven and wet in places.

2. Is there any likelihood of exposure to pets or other animals which may present a risk to the safety of the Inspector?

The Order route is separated from the adjacent farmland and properties although walkers with dogs may be encountered along the route.

3. Is the site remote and/or can it be seen from other occupied buildings/property/public land/roadside?

The Order route is not remote and passes a number of rural properties. Sections are enclosed by trees and hedges and not visible from the public road or from the properties situated along it.

4. Does the site have a good mobile phone signal or is there easy access to a public telephone should the emergency services be required?

The mobile signal is generally good although occasionally signal is lost.

5. Are there any areas that require specialist equipment or training for access – any confined spaces?

No

6. Are there any dangerous pieces of equipment or substances stored at the location?

None identified

7. Is there any likelihood of exposure to chemicals, asbestos, radiation or are there any other risks, requiring the use of Personal Protection Equipment, which may affect the health & safety of the Inspector? (Asbestos is referred to directly as it was present in buildings built before it was banned in 1977).

None identified

8. If there is any other relevant information which the Inspector should be aware of that is not covered in this questionnaire?

No
