Full 100 Metre Reference SD 743393

The above Full Reference is unique. For many purposes the first grid letter can be omitted, giving a reference, D 743393 which recurs at intervals of 500 Kilometres. If both grid letters are omitted, the resulting reference 743393 recurs at intervals of 100 Kilometres. When the area concerned is sufficiently restricted, as will usually be the case with maps on a scale of one inch to the mile and larger, both the grid letters are normally omitted.

At the Eastern edge of this sheet True North is 0°18' East of Grid North and at the Western edge 0°22' East of Grid North.

Magnetic North was about 91° West of Grid North in 1956 decreasing by about 1° in four years. Heights are in feet above Mean Sea Level at Newlyn.
