THE NATIONAL GRID
TO GIVE A GRID REFERENCE CORRECT TO 100 METRES

EXAMPLE: St James's Church
The Grid Letters on this sheet are SD

EAST		NORTH	
Take west edge of kilometre square in which point lies and read the large figures printed opposite this line on north or south margins.	Estimate tenths Eastwards	Take south edge of kilometre square in which point lies and read the large figures printed opposite this line on east or west margins.	Estimate tenths Northwards
51	7	21	7
517		217	

Full 100 Metre Reference SD 517217

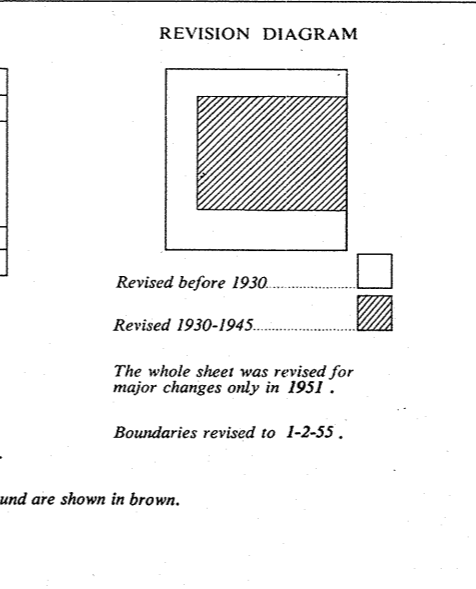

The above Full Reference is unique. For many purposes the first grid letter can be omitted, giving a reference, D 517217 which recurs at intervals of 500 Kilometres. If both grid letters are omitted, the resulting reference, 517217 recurs at intervals of 100 Kilometres. When the area concerned is sufficiently restricted, as will usually be the case with maps on scales of one inch to the mile and larger, both the grid letters are normally omitted.

At the Eastern edge of this sheet True North is 0° 33' East of Grid North and at the Western edge 0° 37' East of Grid North.

Magnetic North was about 94° West of Grid North in 1955 decreasing by 1° in four years. Heights are in feet above Mean Sea Level at Newlyn.

Boundaries which have been verified on the ground are shown in black. Boundaries which have not been verified on the ground are shown in brown.

1 square inch on this map represents 1778 acres on the ground.

Printed and Published by the Director General of the ORDNANCE SURVEY, CHESHINGTON, SURREY, 1955.

Antiquity (Site of)	Park, Fenced	Orchard
Spot Height	Wood, Coniferous	Rough Pasture
Boundaries, County	Wood, Deciduous	Heath & Moor
County or Borough Constituency	Wood, Mixed	Marsh
Rural District	Underwood	Reeds
Parish		Otter Bed
		Quarry
		Gravel Pit
		Sand Pit
		Other Pits
		Contour values are in feet.
