

## Health and safety at the site questionnaire

The Inspector will visit the site and will need to know what safety equipment and protective clothing to bring. The following questions indicate the type of information the Inspector will need about the site. Please supply any additional information on a separate sheet of paper.

1. Is the site uneven or does it present any other known risks? Is special footwear or any other Personal Protection Equipment required?

Between points B-C-D on the Order plan the route passes through an area used to keep livestock and is partially obstructed by a pond. The ground may be uneven and muddy depending on when the Inspector visits it.

2. Is there any likelihood of exposure to pets or other animals which may present a risk to the safety of the Inspector?

Between points B-C-D goats, chickens and other birds may be present.

3. Is the site remote and/or can it be seen from other highways or rights of way?

The site is not remote.

4. Does the site have a good mobile phone signal or is there easy access to a public telephone should the emergency services be required?

Good mobile coverage on all networks.

5. Is the right of way easily accessible? Will arrangements for access by the Inspector need to be made in advance?

The site is easily accessible. From point A-B there are no access restrictions, and the route is in regular use to access a number of properties. Between points B-C-D access on foot is currently allowed but is stated to be by permission at point B. If closed off then it is necessary to ask the landowner for access – Mr Andrew Grant, Ayrefield House [andrewgrant@jsg.com](mailto:andrewgrant@jsg.com)

6. Are there any dangerous pieces of equipment or substances stored at any point along the right of way?

None known.

7. If there is any other relevant information which the Inspector should be aware of that is not covered in this questionnaire?

No.
