Public Right of Way User Evidence Statement

Revised April 2018

This statement should be completed and returned to the person making the application so that it can be submitted with or form part of an application seeking a change to the Definitive Map and Statement of Public Rights of Way.

This statement is intended to provide preliminary evidence about the application. When the Order-Making Authority (OMA) commences detailed research, an officer from that authority may contact you to seek further information or ask you to be interviewed about your evidence.

This statement is designed to help establish whether or not the route being claimed in the application is a public right of way. It also provides evidence of how it is used (for example on foot, on horseback, by vehicles etc).

You should answer the questions as fully as possible and not keep back any information, whether for or against the public claim. This is important if this information is to be of real value in establishing the status of the application route. The information given may be examined at a public inquiry.

This statement should be completed by one person only and should relate to only one route. If you need more space please continue on a separate sheet which will need to be attached to this statement.

If completing the statement by hand, please ensure it is written legibly and in black ink.

Confidentiality – Please Read Carefully

The information you give in this statement cannot be treated as confidential.

- It may be necessary for the OMA to disclose information received from you to others, which may include other local authorities, the Planning Inspectorate and other government departments, public bodies, other organisations, landowners and members of the public. If the application proceeds to a public inquiry your evidence will be made available to the inquiry.
- If the OMA proceeds with the application but it is contested (for example by a landowner), there may be a public inquiry. This will be held locally and if you are unable to attend your evidence will be given in writing, but user evidence is of much greater value if you attend in person and are prepared to answer questions about it. Inquiries are kept as informal as possible and the OMA will help you with the procedure.
- The information you give in this statement will be processed in accordance with the Data Protection Act 1998. It is held by the OMA's Rights of Way Service for the sole purpose of processing the application for the route referred to.

DECLARATION

Data Protection Legislation

In order to decide if a public right of way exists it may be necessary to disclose information received from you. The information provided on this statement cannot be treated as confidential (other than your personal contact details and signature contained on this page). You should only provide us with the information requested if you are happy for it to be placed in the public domain. Do not include information about another person.

This statement and the details contained therein will be considered by the OMA to establish whether a public right of way exists and, in signing it, you are acknowledging that it may be made publically available and published on the OMA's website.

Continued... ①

the application route provides parents with a scenic route to take their children to school. Should the pathway be made private, then these children will no longer benefit from this experience due to the application route acting as both entry and exit. These children are in a classroom setting for most part of the day and greatly benefit from having easy access, on their journey to and from school, to a large playing field and area of outstanding nature, in which they can run around and learn of things not covered in the curriculum. These are the things that children remember, having fun with their parents and grandparents on the journey to and from school.

I am advised that some of the community allotments are also being considered for privatisation. I feel this would be detrimental to the wildlife, and also nonsensical considering the wider issues we face as a society, in terms of our overreaching arm on nature as a whole.

It would be a great shame to your community if this application route is altered in any way. We as a community have been using it freely for many, many years, and I have always been under the impression that it was public. I lived directly opposite the application route for a number of years, and have continued to reside nearby for a further 14 years due to the very rural feel to this area. This application route adds to the sense of space and nature found within this area. It really would not benefit anybody if this area became restricted, and to who's gain?
