The West half of this sheet is Plan SD 7628 The East half of this sheet is Plan SD 7728

- Antiquities (site of)
Change of boundary merging
Limit of area within which the acreages of individual parcels are not shown
Leveling Information
Altitudes of Bench Marks and Surface Levels are given in feet above the Newlyn Datum.
Bench Mark lists, containing fuller and possibly later leveling information, are obtainable from the Director General, Ordnance Survey.

REFERENCE For fuller information see Reference Card published separately. NATIONAL GRID REFERENCE The lines on the plan form part of the National Grid and are spaced at 100 metre intervals. To give a large scale reference defining the position of a point to the nearest 10 metres proceed as follows: EXAMPLE: No 65 SANDY LANE EASTING NORTHING Take west edge of square in which point lies and read the figures opposite this line on NORTH and SOUTH margins. Estimate size of metres from the grid line. Take south edge of square in which point lies and read the figures opposite this line on EAST and WEST margins. Estimate size of metres from the grid line. TEN METRE REFERENCE: SD 76652828 For further information see "The Projection for Ordnance Survey Maps and Plans and the National Reference System". The representation on this plan of a road, track or footpath is an evidence of the existence of a right of way. 1 square inch on this plan represents 936 of an acre on the ground. The alignment of roads where shown is approximate.
