

Channel Way, Preston Revocation of Prohibition of Driving except for access

STATEMENT OF REASONS

Following a query from the police regarding enforcement in the area, it was discovered that the current Prohibition of Driving except for access Order dating back to 1989 was implemented for the use of the old G.E.C. and Custom House and is now out dated to the properties in the area.

Channel Way eastbound is not a "through road" and only supplies commercial premises, therefore the restriction serves no purpose. Following discussions with the police it is now proposed to remove the Prohibition of Driving.
