THE NATIONAL GRID
TO GIVE A GRID REFERENCE CORRECT TO 100 METRES

EXAMPLE The Hollies

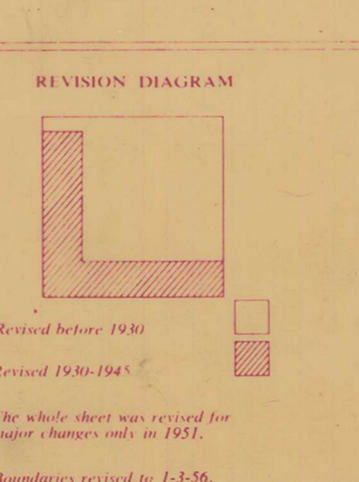

The Grid Letters on this sheet are SD

EAST	NORTH
52	65
53	66
54	67

Full 100 Metre Reference SD 532650

The above Full Reference is unique. For many purposes the first grid letter can be omitted, giving a reference, SD 532650 which recurs at intervals of 500 Kilometres. If both grid letters are omitted, the resulting reference, 532650 recurs at intervals of 100 Kilometres. When the area concerned is sufficiently restricted, as will usually be the case with maps on scales of one inch to the mile and larger, both the grid letters are normally omitted.

At the Eastern edge of this sheet True North is 0° 33' East of Grid North and at the Western edge 0° 37' East of Grid North. Magnetic North was about 91° West of Grid North in 1956, decreasing by about 1' in four years.
