THE NATIONAL GRID
TO GIVE A GRID REFERENCE CORRECT TO 100 METRES

EXAMPLE

The Grid Letters on this sheet are SD

EAST	NORTH
Take west edge of kilometre square in which point lies and read the large figures printed opposite this line on north or south margin.	Take south edge of kilometre square in which point lies and read the large figures printed opposite this line on east or west margin.
Estimate tenths Eastwards	Estimate tenths Northwards
532	650

Full 100 Metre Reference SD 532650

The above Full Reference is unique. For many purposes the first grid letter can be omitted, giving a reference, D 532650 which recurs at intervals of 500 Kilometres. If both grid letters are omitted, the resulting reference 532650 recurs at intervals of 100 Kilometres. When the area covered is sufficiently restricted, as will usually be the case with maps on scales of one inch to the mile and larger, both the grid letters are normally omitted.

At the Eastern edge of this sheet True North is 0° 33' East of Grid North and at the Western edge 0° 37' East of Grid North

Magnetic North was about 9½° West of Grid North in 1956 decreasing by about 1° in four years.

Heights are in feet above Mean Sea Level at Newlyn.

1 square inch on this map represents 1778 acres on the ground.

REVISION DIAGRAM

Revised before 1930

Revised 1930-1945

The whole sheet was revised for major changes only in 1951.

Boundaries revised to 1-3-56.

Major roads revised 1961.

Made and published by the Director General of the ORDNANCE SURVEY, CHESSINGTON, SURREY, 1956.

Reprinted with the addition of new major roads 1962.
