

The shaded area, where
the asterisk is.

was where members parked
before the farm was
taken over. no one ever
objected to this facility

From the main Rd Past the CIU Club house to the Rd Bridge over the River
turn left before the Rd Bridge (Park Car) on ~~the~~ right hand side of River
then walk over Rd Bridge passed the public house on left and follow
the river until appearing in your photo, far left.

The asterisk which appears on your photo is where I would take the car to unload
and then return it back over the bridge and continue on foot over the river
log log bridge. This was because I am disabled. After the houses were
built I was ever diminished that private.
