

Health and safety at the site questionnaire

The Inspector will visit the site and will need to know what safety equipment and protective clothing to bring. The following questions indicate the type of information the Inspector will need about the site and any land or building that the Inspector will need to enter. Please supply any additional information on a separate sheet of paper.

1. Is the site uneven or does it present any other known risks? Is special footwear or any other Personal Protection Equipment required, and will this be supplied at the site?

Walking boots or Wellington boots recommended as the route passes along a pot holed track often affected by standing water.

2. Is there any likelihood of exposure to pets or other animals which may present a risk to the safety of the Inspector?

Horses are ridden along the Order route and walkers are often seen accompanied by dogs. No known risk.

3. Is the site remote and/or can it be seen from other occupied buildings/property/public land/roadside?

It is possible to drive along the order route (although not recommended, even with permission, as the route is quite potholed). Public vehicular access available to both ends of the claimed route and would suggest parking on Rainhall Crescent.

4. Does the site have a good mobile phone signal or is there easy access to a public telephone should the emergency services be required?

Good mobile coverage in the area on all networks.

5. Are there any areas that require specialist equipment or training for access – any confined spaces?

No

6. Are there any dangerous pieces of equipment or substances stored at the location?

No

7. Is there any likelihood of exposure to chemicals, asbestos, radiation or are there any other risks, requiring the use of Personal Protection Equipment, which may affect the health & safety of the Inspector? (Asbestos is referred to directly as it was present in buildings built before it was banned in 1977).

No

8. If there is any other relevant information which the Inspector should be aware of that is not covered in this questionnaire?

No
